

DECLARE YOUR INDEPENDENCE WITH

SOFIA™

ONLINE HOMEWORK, QUIZZES, & TESTS

Powered by 20 years of ground-breaking testbank development, LSI built Sofia to offer independent, affordable yet high-quality, engaging online assessment. Because we know students are more likely to succeed when they have access to the tools and support they need, when and where they need it.

Benefits of Sofia online homework, quizzes, and tests:

STAY IN LMS

- Students remain in their course
- Assignments populated in tasks, assignment area, and calendar
- Grade details in LMS gradebook
- Saves instructor time

7,000+ ITEMS

- Algorithmically-generated
- Instant feedback and scores
- Engaging item types include hints and step-by-step solutions
- Arithmetic through Precalc

DAY 1 ACCESS

- Low cost institutional license inclusive of all subject areas
- Supports assessment of math across the curriculum
- Easily assign pre-built assignments or create from scratch

EMBRACE OER

- Flexibility to choose any course resource, including open textbooks and other popular OER
- No rebuilding assignments
- Low or no costs to students
- Remove financial barriers

“

This solves all of my problems! I can create innovative math homework assignments that actually live in Canvas, allowing me to choose any textbook or OER lesson material I want.

- Math Instructor

”

ABOUT LSI

Link-Systems International (LSI) is an eLearning solutions provider committed to student success.

SOFIA™

ONLINE HOMEWORK,
QUIZZES, & TESTS

Navigation menu items: Home, NetTutor, Tutoring Cloud, SOFIA, Grades, Syllabus, Assignments, Quizzes, Textbook, People, Announcements.

Sofia for Faculty

- Over 7,000-item testbank
- Curricular flexibility
- Pre-built assignments
- Math across curriculum
- Custom tolerance settings
- Gradebook auto-sync

Sofia for Students

- Algorithmic skill-building
- Stay in Canvas/Brightspace
- Day 1 access
- Low cost, high quality
- Robust help features
- One click to ask NetTutor

2.1 Use General Strategy to Solve Linear Equations

Solve for x .

$$4x + 6(x + 4) = 94$$
$$4x + 6x + 24 = 94$$
$$10x + 24 = 94$$
$$10x + 24 - 24 = 94 - 24$$
$$10x = 70$$
$$\frac{10x}{10} = \frac{70}{10}$$
$$x = 7$$

So, the solution is $x = 7$.

Help features: Question, Hint, Show Me, Your Turn, Live Help, Try Another, Next Question, Submit.
